

## TABLE OF CONTENTS

### VOLUME C

MICHAEL HOCHMAN — Return times, recurrence densities and entropy for actions of some discrete amenable groups	1
DANIEL GIRELA, MIROSLAV PAVLOVIĆ AND JOSÉ ÁNGEL PELÁEZ — Spaces of analytic functions of Hardy–Bloch type	53
A. BOUTET DE MONVEL, S. NABOKO, P. STOLLMANN AND G. STOLZ Localization near fluctuation boundaries via fractional moments and applications	83
DAVID KALAJ AND MIODRAG MATELJEVIĆ — Inner estimate and quasi-conformal harmonic maps between smooth domains	117
ÓSCAR CIAURRI AND KRZYSZTOF STEMPAK — Weighted transplantation for Fourier-Bessel series	133
S. R. BELL, P. EBENFELT, D. KHAVINSON AND H. S. SHAPIRO — On the classical Dirichlet problem in the plane with rational data	157
SHEN YULIANG — Biholomorphic isomorphisms between Teichmüller curves	191
PHILIP T. GRESSMAN AND ELIAS M. STEIN — Regularity of the Fourier transform on spaces of homogeneous distributions	211
OVIDIU CALIN, DER-CHEN CHANG AND JINGZHI TIE — Fundamental solutions for Hermite and subelliptic operators	223
PIERPAOLO ESPOSITO, ANGELA PISTOIA AND JUNCHENG WEI — Concentrating solutions for the Hénon equation in $\mathbb{R}^2$	249
BRUNO FRANCHI AND ELENA SERRA — Convergence of a class of degenerate Ginzburg–Landau functionals and regularity for a subelliptic harmonic map equation	281
V. V. ANDRIEVSKII — Local Remez-type inequalities for exponentials of a potential on a piecewise analytic arc	323
JULIO DELGADO — Estimations $L^p$ pour une classe d’opérateurs pseudo-différentiels dans le cadre du calcul de Weyl–Hörmander	337
VLADIMIR MIKHAELOVICH MIKLYUKOV — On maps almost quasi-conformally close to quasi-isometries	375
