

TABLE OF CONTENTS

VOLUME LXXXIII

V. RYAZANOV, U. SREBRO AND E. YAKUBOV — BMO-quasiconformal mappings	1
I. FILIPOWICZ, B. KAMIŃSKI AND J. KWIATKOWSKI — Topological and metric product \mathbb{Z}^d -actions and their applications	21
YURI KIFER — “Random” random matrix products	41
CLAUDY CANCELIER, BRUNO FRANCHI AND ELENA SERRA — Agmon metric for sum-of-squares operators	89
TETSUTARO SHIBATA — Interior transition layers of solutions to the perturbed elliptic Sine–Gordon equation on an interval	109
YURI LYUBARSKII AND EUGENIA MALINNIKOVA — On approximation of subharmonic functions	121
NADIA ANSINI AND ANDREA BRAIDES — Homogenization of oscillating boundaries and applications to thin films	151
YUKI SANO, PIERRE ARNOUX AND SHUNJI ITO — Higher dimensional extensions of substitutions and their dual maps	183
FINBARR HOLLAND AND RICHARD ROCHBERG — Bergman kernel asymptotics for generalized Fock spaces	207
ROBERT BROOKS AND ERAN MAKOVER — Riemann surfaces with large first eigenvalue	243
DOV AHARONOV, HAROLD S. SHAPIRO AND ALEXANDER YU. SOLYNIN — A minimal area problem in conformal mapping II	259
ZOLTÁN M. BALOGH — Hausdorff dimension distribution of quasiconformal mappings on the Heisenberg group	289
M. COMTE AND T. LACHAND-ROBERT — Existence of minimizers for Newton’s problem of the body of minimal resistance under a single impact assumption	313
M. SH. BIRMAN AND M. SOLOMYAK — On the negative discrete spectrum of a periodic elliptic operator in a waveguide-type domain, perturbed by a decaying potential	337
