ISRAEL JOURNAL OF MATHEMATICS

TABLE OF CONTENTS, VOLUME 235, 2020

Adams, T., V. Bergelson and W. Sun *Under- and over-independence in measure preserving systems* 349

Alon, N., I. Balla, L. Gishboliner, A. Mond and F. Mousset *The minrank of random graphs over arbitrary fields* 63

An, Y. and H. Liu *The Schrödinger–Poisson type system involving a critical nonlinearity on the first Heisenberg group* 385

Balla, I. See N. Alon

Barry, D., A. Chapman and A. Laghribi *The descent of biquaternion algebras in characteristic two* 295

Bergelson, V. See T. Adams

Bernshteyn, A. *Ergodic theorems for the shift action and pointwise versions of the Abért–Weiss Theorem* 255

Bloom, T. F. and A. Walker *GCD sums and sum-product estimates* 1

Buhovsky, L., A. Kiro and S. Sodin *Power substitution in quasi-analytic Carleman classes* 79

Chai, J. and Z. Qi *Bessel identities in the Waldspurger correspondence over the complex numbers* 439

Chapman, A. See D. Barry

Chen, W., S. Garti and T. Weinert *Cardinal characteristics of the continuum and partitions* 13

Coulangeon, R. and G. Nebe *Slopes of Euclidean lattices, tensor product and group actions* 39

De Thélin, H., T. Gauthier and G. Vigny *The bifurcation measure has maximal entropy* 213

Elekes, M., D. Nagy, M. Poór and Z. Vidnyánszky *A Haar meager set that is not strongly Haar meager* 91

Garti, S. See W. Chen

Gauthier, T. See H. De Thélin

Gishboliner, L. See N. Alon

König, J. *On number fields with power-free discriminant* 413

Kegel, M., J. Schneider and K. Zehmisch *Symplectic dynamics and the 3-sphere* 245

Kiro, A. See L. Buhovsky

Laghribi, A. See D. Barry
Li, H. and Z. Rong *Null actions and RIM non-open extensions of strongly proximal actions* 139
Liu, H. See Y. An
Lodha, Y. *Coherent actions by homeomorphisms on the real line or an interval* 183
Lucchini, A. and G. Tracey *Finite groups with large Chebotarev invariant* 169
Mond, A. See N. Alon
Mossel, E. *Gaussian bounds for noise correlation of resilient functions* 111
Mousset, F. See N. Alon
Nagy, D. See M. Elekes
Nebe, G. See R. Coulangeon
Poór, M. See M. Elekes
Qi, Z. See J. Chai
Rong, Z. See H. Li
Schneider, J. See M. Kegel
Shumyatsky, P. *Profinite groups with pronilpotent centralizers* 325
Sodin, S. See L. Buhovsky
Sun, W. See T. Adams
Tracey, G. See A. Lucchini
Vasey, S. *Tameness from two successive good frames* 465
Vidnyánszky, Z. See M. Elekes
Vigny, G. See H. De Thélin
Walker, A. See T. F. Bloom
Weinert, T. See W. Chen
Zehmisch, K. See M. Kegel
