

ISRAEL JOURNAL OF MATHEMATICS

TABLE OF CONTENTS, VOLUME 254, 2023

ADOLF, D. <i>Lower consistency bounds for mutual stationarity with divergent cofinalities and limited covering</i>	479
BALLICO, E., A. BIK, A. ONETO AND E. VENTURA <i>Strength and slice rank of forms are generically equal</i>	275
BERSUDSKY, M. <i>on the image in the torus of sparse points on dilating analytic curves</i>	341
BIK, A. See E. BALLICO	
BURNES, T. C. <i>On soluble subgroups of sporadic groups</i>	313
CASALS-RUIZ, M., A. GARRETA, I. KAZACHKOV AND J. DE LA NUEZ GONZÁLEZ <i>Simple groups with infinite verbal width and the same positive theory as free groups</i>	39
DONG, C.-P. <i>On the Helgason–Johnson bound</i>	373
ERKURŞUN-ÖZCAN, N. AND F. MUKHAMEDOV <i>An extension of the zero-two law on L_p-spaces</i>	461
FERRARA, M. AND M. TROMBETTI <i>The pro-norm of a profinite group</i>	399
FRISCH, J. AND F. SHINKO <i>A dichotomy for Polish modules</i>	97
GARRETA, A. See M. CASALS-RUIZ	
GIAMBRUNO, A., A. IOPPOLO AND D. LA MATTINA <i>Trace codimensions of algebras and their exponential growth</i>	431
HOFFMANN, D. M., C.-M. TRAN AND J. YE <i>Stable formulas in ordered structures</i>	293
IOPPOLO, A. See A. GIAMBRUNO	
KAZACHKOV, I. See M. CASALS-RUIZ	
KOSZ, D., M. MIREK, P. PLEWA AND B. WRÓBEL <i>Some remarks on dimension-free estimates for the discrete Hardy–Littlewood maximal functions</i>	1
MARTINO, F. AND C. RIZZO <i>Differential identities and varieties of almost polynomial growth</i>	243
LA MATTINA, D. See A. GIAMBRUNO	
MIREK, M. See D. KOSZ	
MORETÓ, A. AND P. H. TIEP <i>Nonsolvable groups have a large proportion of vanishing elements</i>	229
MUKHAMEDOV, F. See N. ERKURŞUN-ÖZCAN	
DE LA NUEZ GONZÁLEZ, J. See M. CASALS-RUIZ	

ONETO, A. See E. BALLICO	
PAPADAKIS, S. A. AND V. PETROTOU <i>The generic anisotropy of simplicial 1-spheres</i>	141
PETROGRADSKY, V. <i>Scale for codimension growth of Poisson PI-algebras</i>	201
PETROTOU, V. See S. A. PAPADAKIS	
PIASECKI, L. AND J. VILLADA <i>Separable Lindenstrauss spaces whose duals do not contain weak* closed convex unbounded sets having the AFPP</i>	87
PLEWA, P. See D. KOSZ	
RAMPASSO, G. C. See J. V. DA SILVA	
RICARTE, G. C. See J. V. DA SILVA	
RIZZO, C. See F. MARTINO	
SHINKO, F. See J. FRISCH	
DA SILVA, J. V., G. C. RAMPASSO, G. C. RICARTE AND H. A. VIVAS <i>Free boundary regularity for a class of one-phase problems with non-homogeneous degeneracy</i>	155
TIEP, P. H. See A. MORETÓ	
TOMON, I. <i>Ramsey properties of semilinear graphs</i>	113
TRAN, C.-M. See D. M. HOFFMANN	
TROMBETTI, M. See M. FERRARA	
VENTURA, E. See E. BALLICO	
VILLADA, J. See L. PIASECKI	
VIVAS, H. A. See J. V. DA SILVA	
WRÓBEL, B. See D. KOSZ	
YE, J. See D. M. HOFFMANN	
ZHANG, J. <i>Reflection principles, GCH and the uniformization properties</i>	57
